12,000 Programs Off the Madisonian Job Presses.

The Madisonian job printing department, which is second to none, has printed 12,000 programs for Richmond's two popular playhouses, the Opera House and the Alhambra. The programs carry the advertisements of a number of Richmond's most up-to-date business firms and the neat typographical effect of the programs is being praised by the advertisers and the public.

Advertising has a two-fold purpose, first to attract attention, second to convince the prospective purchaser. Advertising is a selling force which creates and directs demand. The firms advertising on the programs turned out, recognize the fact that the public is sensitive—that is, it goes where it is invited and stays only where it is well treated. The firms advertising on the program will treat you well.

The Madisonian Job printing department is prepared to do any and all kinds of printing. Let us figure with you on that next job—if you want high class stationery.

Cool Nights "Greening" Tobacco

V. W. Hardin, living near Red House, says the cool weather of the last few days has "greened" his growing tobacco as much as a good rain would. Before the cool nights his tobacco was firing in the field, now he believes that if the weather remains cool his tobacco will be as good or better than it would be if there should fall heavy rains which would wash off the gum which makes pounds for the tobacco grower.
